SIPPO

SIPPO Swiss Import Promotion Programme is the official import promotion programme under the patronage of SECO, the State Secretariat for Economy of the Swiss government. It supports private businesses in emerging markets and markets in transition that are endeavouring to access the Swiss market as well as markets in the European Union. **SIPPO's** services include business branch-related market information, advisory services for products and marketing, promotion in Switzerland as well as assistance at selected European trade fairs. At the same time, Swiss and EU companies are informed about the requests for contact received from foreign companies and are given support in their search for new sourcing markets, products and cooperation partners. The aim of this economic and trade promotion is to support emerging markets and markets in transition in their attempts at comprehensive integration into the global economy.

SIPPO's programme is a part of Switzerland's development and foreign trade policies. It is conducted complementary to other programmes involved in technical cooperation relevant to trade. Apart from a contribution to the costs by participants in the programme, the programmes are largely financed by the State Secretariat for the Economy, SECO.

At SIPPO stand at INTERPART 2007 Hall 1 Stand A 055 selected market leaders from 4 transition countries are offering you excellent solutions (Metal processing, Electronics, Machine Parts, Automotive parts) with an outstanding price/performance ratio.

In the framework of a Win —Win situation for all Swiss and EU companies an efficient solution for identification of new sourcing opportunities is being offered allowing in short and mid terms the increase of the competitiveness of their own products.

SIPPO Swiss Import Promotion Programme ist ein wirtschaftsentwicklungspolitisches Handelsförderprogramm und steht unter dem Patronat des Staatssekretariates für Wirtschaft seco der schweizerischen Regierung. Es unterstützt privatwirtschaftliche Unternehmen in Entwicklungs- und Transformationsländern, die Zugang zum Schweizer Markt, aber auch zu Märkten der Europäischen Union suchen. Die Dienstleistungen umfassen branchenbezogene Marktinformationen, Produkt- und Marketingberatung, Promotion in der Schweiz sowie Messebetreuung auf ausgewählten europäischen Fachmessen.

Gleichzeitig werden schweizerische und EU Unternehmen über die Kontaktgesuche ausländischer Firmen informiert und erhalten Unterstützung bei der Suche nach neuen Beschaffungsmärkten, Produkten und Kooperationspartnern.

Ziel dieser wirtschafts- und handelspolitischen Förderung ist, die Bemühungen der Entwicklungs- und Transformationsländer für eine umfassende Integration in die Weltwirtschaft zu unterstützen:

Das SIPPO Programm ist ein Teil der Entwicklungs- und Aussenwirtschaftspolitik der Schweiz. Es wird komplementär zu anderen Programmen der handelsrelevanten technischen Zusammenarbeit durchgeführt.

Am **SIPPO Infostand** an der INTERPART 2007 **Halle 1 Stand A 055** präsentiert SIPPO ausgewählte Zulieferer (**Metallverarbeitung, Elektronik, Maschinenbau, Automobilzulieferteile, Kunststoffteile**) aus 4 Transitionsländern mit einem attraktiven Preis/Leistungsverhältnis.
