The Swiss Import Promotion Programme (SIPPO), under the patronage of the state secretariat for economic affairs of the Swiss government (SECO), aims at supporting small and medium-sized enterprises (SMEs) from emerging markets and markets in transition to access the Swiss and EU markets as well as it helps Swiss and European importers to find the right partner in emerging markets and markets in transition.

SIPPO's activities focus on five main goals:

- To inform the Swiss and EU importers on new market sources
- To include trade institutions and business branch associations in the trade promotion process
- To increase the competitiveness of small and medium-sized enterprises in selected partner countries
- To develop the manufacturing and exporting skills
- To establish qualified trade contacts between SMEs from emerging markets and markets in transition and the Swiss and EU import economy

Repeated participations at selected international trade fairs are a prerequisite for future success and a major milestone in the trade promotion process. SIPPO is sponsoring a collective booth at SaieDue 2006 in Bologna Fiera offering selected manufacturers a prime marketing platform.
