ATA / SIPPO

ATA

Aid to Artisans, a nonprofit organization, offers practical assistance to artisans worldwide, working in partnerships to foster artistic traditions, cultural vitality and community well-being. Through training and collaboration in product development, production and marketing, Aid to Artisans provides sustainable economic and social benefits for craftspeople in an environmentally sensitive and culturally respectful manner.

Because the goal of Aid to Artisans is to help artisans sell their work locally and in world markets, we provide the following assistance:

Product development and design consultation;

Business training both in-country and through our Market Readiness Training Program;

Marketing help through displaying artisan products at venues like the New York, Atlanta, and San Francisco International Gift Fairs, and at Ambiente Frankfurt, thereby increasing market exposure for artisans' products;

Direct grants to artisan groups through ATA's Grants Program.

All of these efforts have the same goal: creating sustainable employment for artisans worldwide.

SIPPO

The Swiss import promotion programme from emerging markets and markets in transition was launched in 1982 and aims to help small and medium-sized enterprises (SME) to gain access to the Swiss and EU markets.

SIPPO's activities focus on five main goals:

- Increase in the competitiveness of small and medium-sized enterprises in selected partner countries
- Development of manufacturing and exporting skills
- Inclusion of trade institutions and business branch associations in the trade promotion process
- Increase in qualified trade contacts between small and medium-sized enterprises from emerging markets and markets in transition and the Swiss and EU import economy
- Information for the Swiss and EU import economy on new market sources

Repeated participations at selected international trade fairs are a prerequisite for future success and a major milestone in the trade promotion process.

For the second time, SIPPO is co-sponsoring a collective stand at Ambiente in Frankfurt offering selected manufacturers a prime marketing platform.
