

## **JORDAN - GUEST COUNTRY at ORBIT/COMDEX 2003**

**Selected companies from  
JORDAN  
present their products and services at the**

**Orbit / Comdex 2003**

**24. – 27. September 2003**

**JORDAN PAVILION**

**Hall 1.0 Stand A 60**

[www.trado.org](http://www.trado.org)

*By initiative of His Majesty, King Abdullah II and the Secretary of State Mr. David Syz, State Secretariat of Economic Affairs, **seco**, Bern **TRADO** – a “BtB Trade Platform” for the ICT sectors of Jordan and Switzerland has been developed and implemented.*

*This match making tool resulted after various discussions with representatives of the Swiss and Jordanian ICT Sector and the joined efforts of a project team (SIPPO, Swiss Import Promotion Programme, SIMSA, Swiss Interactive Media and Software Association assigned by seco and in co-operation with [int@j](mailto:int@j) - the Information Technology Association of Jordan).*

*The “B2B Platform **TRADO**” offers all SMEs (small and medium sized enterprises) in the IT sector in both countries an excellent opportunity to intensify their business contacts and to initiate successful co-operations in a modern, efficient and effective way.*

*Eight months after the official inauguration of TRADO, SIPPO Swiss Import Promotion Programme is organizing the collective stand **Jordan Pavilion** at Orbit/Comdex 2003 to present directly to the Swiss expert and public audience the Jordanian ICT sector.*

*Find in **Hall 1.0 Stand A 60** excellent products (E- Government, E-Business und ERP solutions, security products, wireless communications services and applications) with an outstanding price/performance ratio.*

*Attractive opportunities for long term co-operations on a win – win basis can be discussed directly with the company representatives.*

*At the stand we also present the first Swiss –Jordanian Joint Venture on TRADO - a long term cooperation between the Swiss company shiftTHINK and the Jordanian firm Integrated Systems in the sector of security products.*

Since its inception in 1989, **Integrated Technology Group** leads in technological innovation and was the first Middle Eastern firm to develop and export electronic data interchange (EDI) solution into the European market. Managing a steady growth and technological lead in the past thirteen years, ITG harnessed XML technology to develop the most comprehensive online

Quranic resource Website in the world. In addition, ITG was the first Jordanian software company to develop and deploy an integrated, multilingual enterprise resource planning (ERP) solution in 1995.

**ITG** has a strong local and international presence with deployments in Jordan, the Middle East, North Africa, and Europe.

About five percent of ITG's revenue is spent on R&D and training. The management team realizes the importance of investing in research and development to maintain its technological lead and continuously develops innovative solutions to meet the customers' needs and requirements
