Patronage:
SECO, State Secretariat for Economic Affairs, Berne

The Swiss import promotion program from emerging markets and markets in transition was launched in 1982 and aims to help small and medium-sized enterprises (SME) to gain access to the Swiss and EU markets. Since January 2008 SIPPO is part of Osec.

SIPPO's activities focus on five main goals:

- Increase in the competitiveness of small and medium-sized enterprises in selected partner countries
- Development of manufacturing and exporting skills
- Inclusion of trade institutions and business branch associations in the trade promotion process
- Increase in qualified trade contacts between small and medium-sized enterprises from emerging markets and markets in transition and the Swiss and EU import economy
- Information for the Swiss and EU import economy on new market sources

Repeated participation at selected international trade fairs is a prerequisite for future success and a major milestone in our trade promotion process.
