International trade fair for leather goods, Offenbach

28.9. - 1.10.2006

The Swiss Import Promotion Programme (SIPPO), under the patronage of the state secretariat for economic affairs (SECO) of the Swiss government, aims to help small and medium-sized enterprises (SME) from emerging markets and markets in transition to access the Swiss and EU markets. Further, SIPPO helps Swiss and European importers to find the right partner in emerging and transitional countries.

SIPPO's activities focus on five main goals:

- To inform the Swiss and EU import economy on new market sources
- To include trade institutions and business branch associations in the trade promotion process
- To increase the competitiveness of small and medium-sized enterprises in selected partner countries
- To develop the manufacturing and exporting skills
- To establish qualified trade contacts between SME's from emerging markets and markets in transition and the Swiss and EU import economy

Repeated participations at selected international trade fairs are a prerequisite for future success and a major milestone in the trade promotion process.
