sippo 
— swiss import —
promotion programme

SIPPO

The Swiss Import Promotion Programme (SIPPO), under the patronage of the state secretariat for economic affairs (seco) of the Swiss government, aims to help small and medium-sized enterprises (SME) from emerging markets and markets in transition to access the Swiss and EU markets. Further, SIPPO helps Swiss and European importers to find the right partner in emerging and transitional countries.

SIPPO's activities focus on five main goals:

- To inform the Swiss and EU import economy on new market sources
- To include trade institutions and business branch associations in the trade promotion process
- To increase the competitiveness of small and medium-sized enterprises in selected partner countries
- To develop the manufacturing and exporting skills
- To establish qualified trade contacts between SME's from emerging markets and markets in transition and the Swiss and EU import economy

Repeated participations at selected international trade fairs are a prerequisite for future success and a major milestone in the trade promotion process.

Products	Dried herbs, spices, teas, mushrooms and seeds

Our company was founded in 2000 as a logical development following a new level of EU Organic quality and standards from a very old and competitive company producing herbs and spices. We are expanding slowly as our focus is on quality and not quantity. Our best capital is the highly qualified workers: we employ about 40 workers and farmers in our producing units. IRA-EKO Ltd. has been SKAL International licensed since 2000. Our main partners are in the Netherlands, Germany, England and Spain. As a regular participant of Biofach we are convinced that the organic sector is the future of our business.

Products	Dried spices and various herbs, dates, olives

Environmental Quality International (EQI) was founded in 1981 to contribute to the growth and development of the Middle East and North African region. EQI's goal is to bring about sustainable improvements in the living conditions of people by promoting economic development that respects the region's natural heritage and protects its rich cultural legacy. EQI has 180 full time employees working across many sectors with a vast range of expertise. EQI has a strategic partnership with Al Aguizy, a leading agriculture export company that has over 20 years of experience. Over 7000 tons of pre-packed ready to eat products are exported every year to super markets and caterers in Western Europe. The Siwa organic line will bring the produce of Siwa Oasis to the world. Siwa is the land of natural springs, salt lakes, mineral-rich mud, lush palm and olive groves. Renown in ancient times as one of the world's most important oracle centers, this remote oasis in Egypt has only recently emerged from centuries of isolation from the rest of the world. Siwa's 500'000 date palms are organically grown in this pristine and timeless setting, using cultivation systems that were prevalent when Alexander the Great rode into the oasis over 2300 years ago, seeking confirmation that he was the son of Zeus-Ammon. Ancient Egyptian date recipes are said to have brought harmony and well being to the people of the oasis.

E-Mail	kokenperu@amauta.rcp.net.pe gerencia@kokendelperu.com
Internet	www.kokendelperu.com
Contact	Luis Oswaldo Castillo Huerta
Products	Medicinal plants, food additives

Koken del Perú, established 1998, exports certified organic ingredients for health and food industries to Asian markets, Canada and USA. Introducing our natural products to Europe, we offer fine powders and spray-dried extracts of organically grown Andean roots like Maca and Yacon, the Amazonian Camucamu fruit and medicinal herbs like Cat's claw. Our organic maca is supplied by farmers.
