Patronage:
 seco, State Secretariat for Economic Affairs, Berne

SIPPO (Swiss Import Promotion Programme) is the new import promotion programme under the patronage of SECO, the State Secretariat for the Economy of the Swiss government. It supports private businesses in emerging markets and markets in transition that are endeavouring to access the Swiss market as well as markets in the European Union. SIPPO's services include business branch-related market information, advisory services for products and marketing, promotion in Switzerland as well as assistance at selected European trade fairs.

At the same time, Swiss companies are informed about the requests for contact received from foreign companies and are given support in their search for new sourcing markets, products and cooperation partners. The aim of this economic and trade promotion is to support emerging markets and markets in transition in their attempts at comprehensive integration into the global economy:

Repeated participation at selected international trade fairs is a prerequisite for future success and a major milestone in our trade promotion process.
