Alternative and new activities (Q2-Q4 2020)

The BSOs and SIPPO country teams used the opportunity of COVID-19 and to look at **virtual solutions, institutional networking and exchange between the BSOs** as well as for a crisis-adapted **access to market information**. The updated plans for Q2-Q4 include now the following **virtual solutions (47 alternatives, 40 new)**:

- **Virtual trainings:** 35 (alternatives to originally planned face-to-face trainings)
- **Virtual Matchmaking Solutions:** 12 (alternatives to cancelled trade fairs)

- **Webinars (incl. series of webinars) mainly related to market information and buyer behavior: 21**

- **Virtual (sector) roundtables / panel discussions: 10**

- **Institutional Networking in the virtual space: 9**

A few concrete examples for such virtual solutions include (for more details please visit the individual Country Summaries and the upcoming semester report): In the Balkans the four countries including the partner BSOs together organized a Virtual Panel Discussion for the textile sector to get insights from the buyers perspective for “the day after”; Peru decided to move the Salon de Chocolate to the virtual space; Serbia plans a Virtual B2B Event in the technical wood sector; and South Africa organizes a Virtual Roundtable for the Processed Food and Organic Food sector to learn more about the effects of COVID-19 on the European Market/buyer behavior.
